POWERED BY

NATION'S LARGEST INTERNATIONAL INTER-UNIVERSITY DIGITAL MARKETING CASE COMPETITION

MARKET & COMPETITIVE LANDSCAPE

THE PROBLEM ISN'T LACK OF LOANS; IT'S LACK OF TRUST.

- "Fast and paperless" is now standard, no longer a differentiator
- PalmPay's new pilot targets the exact same first-time buyers.
- Customers want loans right inside shops or MFS apps, not from a new download.

Competitor	Core Focus	What W
	Inside the country's biggest daily app	Zero app for user:
	Online retail marketplace	Wins on across 8
 BRAC Shubidha	Long-term financing	Offers 1 expandi
 PalmPay	New market entrant	Just app first-tim

BRAND & PRODUCT SNAPSHOT

OUR CLIENT'S REAL STRENGTHS, AND THE HONEST GAP WE'RE HERE TO CLOSE.

STRENGTHS

- Powered by Dhaka Bank's 30-year footprint and digital vision.
- First to bring AI-driven device financing to Bangladesh.
- Anchor partnership with Samsung drives immediate brand credibility.
- Active pilot users growing at 40% month-over-month.

GAPS

- Only open to salaried professionals, missing the truly unbanked.
- Overly reliant on single-brand Samsung retail stores.
- Inconsistent branding across eRin, e-Rin, and eRin Device.

CURRENT MARKETING

- eRin focuses too much on corporate PR and tech videos, entirely missing retail shops and MFS apps.
- A tool built to help the unbanked is only marketing to the already-connected.

TARGET MARKET

DEMOGRAPHIC

Age 20-35, informal to salaried

GEOGRAPHIC

Peri-urban Dhaka, Chattogram, Gazipur

PSCYHOGRAPHIC

Personality & Values:
Aspirational, trust-led, debt-cautious
Health-conscious, foody, athletic

BUYER PERSONA

Rafiq Islam

Age:

24

Occupation:

Gig worker

Lifestyle:

Resourceful, on-the-move

Pain Points:

Fears hidden fees, no credit history

Nusrat Jahan

29

Junior executive

Ambitious, time-pressed

App friction, wants full transparency

Moni Begum

34

Informal income

Practical, family-first

No bank statement, first decision that's hers

CORE INSIGHT & THE PROBLEM WE'RE SOLVING

Core Problem

eRin is built for solo online use, but our users have no devices, low trust in tech, and zero digital experience.

Core consumer insight

Customers don't fear the price; they fear the digital process. They prefer local lenders who feel human and easy to deal with.

Rafiq & Moni: "I don't think this is for someone like me."

Nusrat: "Don't hide anything from me."

Our strategy must make eRin feel like a trusted companion in the process; not a faceless AI approval engine.

THE BIG IDEA

ঋণ নয়, প্রয়োজনের
সাথী

"Not a loan. A companion for what you need."

প্রয়োজনের
সাথী

ঋণ
নয়

- For Rafiq and Moni, a loan feels like shame, not help
- It forces them to beg family or face cruel local lenders.
- "not a loan" removes the one scary word that makes them walk away.

- it says "we've got your back" instead of "you owe us"

Rafiq

A companion for an **income** need.

Nusrat

A companion for an **upgrade** need.

Moni

A companion for an **access** need.

The idea that carries everything else.

POSITIONING STATEMENT & CAMPAIGN TAGLINE RATIONALE

What eRin actually has

- A real bank behind it
- a real BTRC-approved device with warranty
- A real person at the shop counter to guide customers step by step.

MASTER BRAND LINE

"Your Phone Is Your First Loan"

Naming discipline:

- always "eRin Device," never only "eRin."

Tone

- Bangla-first
- plain-language, warm
- never "fintech slick."

CAMPAIGN EXECUTION LINE

"Your Next Income Starts Here"

proving the idea can survive contact with competitors.

CAMPAIGN CONCEPT & CONTENT PILLAR FRAMEWORK

The Campaign

"Income Unlock Stories"

Real customers, filmed before and after, three months apart. Not "buy now, pay later"

"I couldn't afford a phone"

"I got eRin Device"

"here's my first Fiverr payment."

Bonus mechanic OEM-funded device discountsies"

- Identify target OEM partners and secure exclusive discounts for eRin customers.
- Define the discount split (OEM + Dhaka Bank) and design joint retail and digital marketing materials.
- Train store agents to pitch the offer at the point of sale, and track redemption and conversion impact.

RETAIL TRUST MECHANICS

Sathi Mode-সাথী মডেল

- Trained shop staff sit face-to-face with customers to walk them through the app.
- They wear a "Verified eRin Partner" badge, so trust is something people can actually see, not just guess.
- We use existing local shops.
- Staff earn base+commission. Rewarded when loans are paid back on time .

MFS-as-KYC

- bKash / Nagad statements accepted as valid proof of income
- an informal favor into a standard rule.

HIGH-INTENT & ORGANIC MECHANICS

Referral Program:

Reward customers for bringing a friend, turning everyday word-of-mouth into a real benefit.

- One share a simple code with a friend or neighbor.
- They visit the shop, and the helper inputs the code.
- As soon as they are approved, both get a bonus.
- We limit the rewards so the system stays fair for everyone.

Repair Shop QR:

- Place a QR code at repair shops saying: "Fix it again? Upgrade instead."
- Scanning shows a new phone's monthly payment is cheaper than the repair cost.
- The app guides them to a nearby helper shop, and the repair mechanic gets a cut.
- It costs next to nothing and builds on trust the shop already has.

COMMUNITY & EARNED MEDIA INNOVATION

Campus Sathi

- Pilot the program in 2–3 campuses to keep things manageable.
- Use students as guides to help classmates sign up for the app.
- Market it as an investment in study tools, not a debt.

The 100,000th Loan

- Write press releases and gather success stories long before we hit the goal.
- Build a reporter contact list so the story is ready to launch instantly.
- Turn the milestone into a major news moment instead of a quiet office update.

Street Pop-Ups

- Use large banners and pop-up booths to reach underserved areas.
- Use simple QR codes on signage to lead locals to the nearest shop.
- Use those codes to see exactly which locations bring in the most customers.

TRADITIONAL & RETAIL-BTL EXECUTION

Timing, budget, and tracking for every mechanic.

Mechanic	Timing
Sathi Rollout	High-footfall outlets; rural in Phase 3
Referral Program	Trigger: post-disbursement
Repair Shop QR	Pilot Phase 1, expand Phase 2

MEDIA STRATEGY & PLATFORM SELECTION

Each persona, met on their own media habits.

Platform	
Facebook / YT Shorts	Dream pillar,
Search (SEM)	Intent-captu

Use real gig workers and students in videos instead of hired actors to keep it honest.

PERFORMANCE MARKETING & ACQUISITION FUNNEL

The funnel that actually moves people

- Use search ads to find people looking for a phone right now.
- Reach back out to anyone who starts signing up but leaves early.
- Build a new audience based on our 10,000 real users, instead of guessing.
